Luxaire® Residential Package Equipment

ULTRA-LOW NOX

STANDARD EFFICIENCY - 14 SEER/11 EER, 81% AFUE

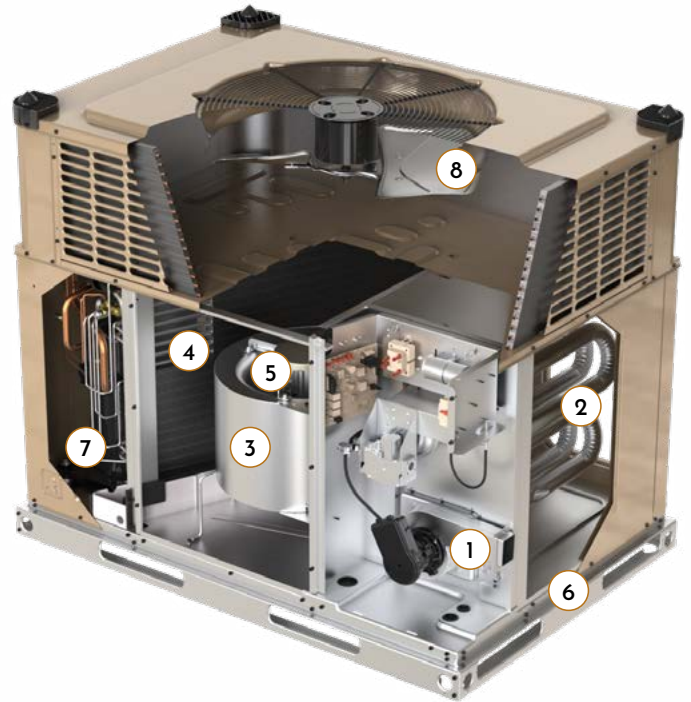

Efficient, reliable, and competitive - with Ultra-Low NOx package equipment from Luxaire®, you get comfort that goes beyond temperature. These package units are designed and engineered to reduce greenhouse and smog-producing gases and lower your fuel costs. And every Ultra-Low NOx package unit from Luxaire® comes with peace of mind provided by class-leading warranties. It's high-performance comfort that's more reliable - while also being more sustainable.

Luxaire.com

Environmentally responsible. Advanced performance. Industry-leading quality.

- Ultra-low emissions** - These package units are designed with advanced burner technology, reducing emissions by as much as 65 percent versus standard low-NOx models, allowing these models to meet the most stringent air quality standards.
- Stainless steel heat exchanger** - Provides long life and 20-year warranty.
- Next generation high-efficiency blower** - Delivers reduced blower watts by up to 10%.
- All-aluminum indoor coils** - Resists formicary corrosion to extend operating life.
- Consistent comfort** - High-efficiency five-speed standard ECM motor ensures dependable air distribution.
- Durable corrosion-resistant materials and finish** - Powder coat finish with 750-hour salt spray rating and galvanized steel base rails.
- Robust single-stage compressor** - Provides dependable, long-lasting operation.
- Low-noise fan and vibration-reducing technology** - Minimizes noise, providing you with the peace and quiet you expect from Luxaire®.

Quick installation and service saves money - Individual panels and front-facing components make for quick access and connections. The convertible airflow design makes for a quick change from horizontal to downflow.

Rigorous testing - Product is exposed to highly accelerated life testing in temperatures ranging from 125 degrees Fahrenheit to 20 degrees below zero.

Flexible application - Options to meet both residential and light commercial applications - single-phase and three-phase models available. Horizontal or downflow duct connections.

Extensive line of accessories - Full assortment for both residential and light commercial applications.

These package units may be eligible for a clean air rebate - check with CleanAirFurnaceRebate.com for details.
